

The collapsible electric power steering (CEPS) market is experiencing robust growth, driven by increasing demand for enhanced fuel efficiency, improved vehicle safety, and the rising ...

During the same period, the cumulative registration of eco-friendly vehicles exceeded 3 million, and the proportion of electric vehicles among newly registered cars in the first half reached 11%.

The automotive electric driven oil pump market, currently valued at \$621 million in 2025, is projected to experience robust growth, driven by the increasing adoption of electric and hybrid ...

The global metal permanent magnet material market is experiencing robust growth, driven by the increasing demand for electric vehicles (EVs), renewable energy technologies, and advanced ...

The company signs major renewable power agreements in Korea, India and the United States to support its transition to RE100, a commitment to using 100% renewable electricity across all ...

The high-voltage DC-DC converter market for electric vehicles (EVs) is experiencing robust growth, driven by the global surge in EV adoption and the increasing demand for higher power ...

The global market for PTC heaters in electric vehicles (EVs) is experiencing robust growth, driven by the accelerating adoption of electric vehicles and the increasing demand for efficient ...

"Canada's electric vehicle market plummeted after federal purchase rebates ran out this year, in sharp contrast to steadily rising sales of conventional vehicles," reads an industry analysis. ...

While Tesla remains the No. 1 electric vehicle manufacturer in the U.S. by far, General Motors said it has secured the No. 2 position and believes it has an "inherent advantage" when it ...

(iSeeCars) - With the \$7,500 federal incentive for new electric vehicles and the \$4,000 incentive for used models set to expire on September 30, there will be fewer new EV sales and falling ...

The automotive gate driver IC market is experiencing robust growth, driven by the increasing adoption of electric vehicles (EVs) and hybrid electric vehicles (HEVs). The rising demand for ...

The global market for charging infrastructure for electric vehicles (EVs) and fleets is experiencing robust growth, projected to reach \$1920.5 million in 2025 and expand significantly over the ...

The global vehicle battery technology market is experiencing robust growth, driven by the escalating demand

## North korea electric vehicles evs

for electric vehicles (EVs) and hybrid electric vehicles (HEVs). The market, estimated at \$150 billion in 2025, is projected to ...

Eco-friendly vehicle registrations in Korea have surpassed the 3-million mark for the first time, driven by rising demand for hybrid and electric vehicles (EVs), government data showed Monday.

The global market for High Voltage PTC Heaters for Electric Vehicles (EVs) is experiencing robust growth, driven by the escalating adoption of electric vehicles worldwide. The increasing ...

The Electric Vehicle (EV) High-Voltage DC-DC Converter market is experiencing robust growth, driven by the escalating demand for electric vehicles globally. The market's expansion is ...

HWASEONG, Gyeonggi Province -- Hyundai Motor Group on Wednesday unveiled its latest electric vehicle innovations at the Namyang R& D Center in Gyeonggi Province, Hyundai Motor ...

The 18650 lithium-ion battery market for electric vehicles (EVs) is experiencing robust growth, driven by the increasing adoption of EVs globally and the inherent advantages of 18650 cells ...

The Alternative Fuel Vehicle (AFV) and New Energy Vehicle (NEV) market is experiencing robust growth, driven by increasing environmental concerns, stringent government regulations aimed at reducing carbon emissions, and ...

The Electric Vehicle (EV) particulate matter (PM) sensor market is experiencing robust growth, driven by stringent emission regulations globally and the accelerating adoption of EVs. The ...

These projects, supported by Russian firms like Norilsk Nickel, enable North Korea to bypass Western sanctions while supplying critical materials for electric vehicles (EVs) and defense ...

CATL, the Chinese battery behemoth, is poised to shake up the electric vehicle landscape with sodium-ion batteries, or "salt batteries," with mass production for mainstream EVs scheduled ...

Electric vehicle tax credits set to end in 2025: What you need to know Editor's note: President Donald Trump signed the "One Big Beautiful Bill Act" (OBBBA) into law on July 4, 2025. A ...
