The Northern Mariana Islands, a US commonwealth situated in the Western Pacific, presents unique challenges for technology and telecommunications due to its remote geography and sparse population. Spread over 14 islands and with a total population around 49,000, the distribution of residents is highly uneven, with the majority located on the island of Saipan.

The Northern Mariana islanders voted to join the United States in 1975, and the island became a municipality of the newly-formed Commonwealth of the Northern Mariana Islands in 1978. [18] On November 4, 1986, the islanders of the Northern Marianas including Saipan became United States citizens and the Northern Marianas formally became a part of the United States of ...
