

Cementing Norway's role as Europe's carbon storage hub Thanks to its vast North Sea storage capacity, Norway can also store carbon for other countries, generating new revenue streams.

Detailed info and reviews on 32 top Energy & Cleantech companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Unlocking a ?Cleaner, More Reliable Grid: The Promise of Long-Duration Energy Storage (LDES) The ?future of energy is clean, reliable, and always-on. But achieving this requires more than ...

The Trudvang carbon capture and storage (CCS) project, operated by Vår Energi in partnership with Storegga and INPEX Idemitsu Norge, has successfully passed its feasibility gate (DG1), ...

Global energy technology company SLB has been awarded a technologies and services contract for carbon storage site development in the North Sea by the Northern Endurance Partnership (NEP), an incorporated joint venture between ...

Energy storage technology provides you with lithium battery technology, silicon-carbon negative electrode, solid-state battery technology and application scenarios, such as electric vehicles, two-wheel electric vehicles, ...

5. Next-Gen Energy Storage: The Heartbeat of Renewables Renewable energy is abundant--but not always reliable. The sun sets. The wind dies. Without effective storage, these fluctuations ...

Recognizing that energy storage safety requires systemic collaboration, Desay Battery brought together industry experts at the event to explore the future of storage technologies, value-chain ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, ...

Glint Solar has added a new battery energy storage noise-modelling feature to its utility-scale planning software platform. The new tool is meant to support project developers during early ...
