Will AMEA power build a solar photovoltaic plant in Djibouti?

Emirati independent power producer (IPP) AMEA Power has signed agreements to build a solar photovoltaic plant in Djibouti. With a capacity of 30 MWp, the construction of the solar plant will be done in the framework of a public-private partnership (PPP).

Why is Djibouti relying on IPPs?

According to Power Africa, Djibouti has an installed capacity of only 126 MW. Out of this just 57 MW are reliably available to serve a population of nearly 988,000 and its main industries. However, the government is relying on IPPs to exploit Djibouti's renewable energy potential. The government is ramping up its renewable energy capacity.

What does AMEA power do in Djibouti?

AMEA Power will develop the project in partnership with the Sovereign Wealth Fund of Djibouti (FSD). The electricity produced will be sold to Djibouti's public utility Électricité de Djibouti (EDD), under a long-term power purchase agreement.

Who signed the JDA in Djibouti?

Whereas, the JDA was signed by Djama Ali Guelleh, CEO of the national utility EDD, Slim Feriani, CEO of FSD, and Hussain Al Nowais. Hussain Al Nowais, said, "Djibouti has set an ambitious target for renewable energy and AMEA Power is pleased to help the nation increase the share of renewable energy in its electricity mix.

Who signed the IA in Djibouti?

The official signing ceremony was held in the presence of President Ismail Omar Guelleh. The IA was signed by Hussain al-Nowais, Chairman of AMEA Power, and Yonis Ali Guedi, Djiboutian Minister of Energy and Natural Resources.

Ocean solar, as one high-tech enterprise focusing on the production of high-efficiency monocrystalline and polycrystalline solar modules. Which serves domestic and oversea installers, distributors and factories engaged in off-grid and on-grid solar energy systems.

Ocean Solar® educates customers throughout the entire solar process. We make solar easy to understand and provide a seamless installation from signing to system activation. When you own a solar system from Ocean Solar®, it generates 100% of your electricity usage. This is sold back to the utility at the retail rate.

Well, I have an Ocean One coming so I'm getting the solar roof either way. But no, financially it makes no sense. It's a gimmick. A sort of a cool gimmick, but a gimmick nevertheless. I suppose if I'm parked at the beach all day, and I get an extra 4 miles of charge, that's definitely not a bad thing. But I don't ever expect to be within 4 ...
