

Octopus energy flexible tariff

Standard variable (Flexible Octopus) follows - and undercuts - Ofgem's quarterly price cap (25.7 p/kWh electricity, 6.3 p/kWh gas from 1 July 2025). Fixed tariffs lock in unit rates for a year but ...

Octopus Energy's Flexible Octopus is another variable tariff that's cheaper than the Price Cap, but only by a few quid. Octopus discounts its standing charges on this tariff (but charges the Price Cap for unit rates), ...

Sell energy back to the grid at peak times (for higher rates ~24.61p / kWh on Intelligent Octopus Flux). Customers on our Flexible Octopus + Outgoing Fixed tariffs save 94% on their electricity bills with a 5kWh battery - ...

What is Cosy Octopus? Cosy Octopus is an import tariff with off-peak and peak periods that's available to any households with an air or ground source heat pump and a smart meter. The tariff offers three off-peak periods, ...

What is Intelligent Octopus Flux? Intelligent Octopus Flux is a smart import and export tariff with peak and off-peak periods that's available to households with solar panels and an eligible battery. Its import and export ...

En 2025, l'offre d'électricité la moins chère d'Octopus Energy est Eco-conso Fixe. Le prix du kWh de cette offre est de 0.1919 EUR (en option Base). Ce prix, comparé aux tarifs ...

For a typical home with high use, with Cosy heat pump installed you could save up to £496 a year. The above savings are based on switching from Octopus Flexible tariff (SVT) to our Cosy tariff, removing the gas supply (which ...

An Octopus Energy quote in July 2025 is cheaper on average than the new price-cap ceiling, and the supplier's mix of flexible and smart tariffs means the "headline" figure you see isn't the limit ...

From 1 July to 30 September 2025, the price of energy for a typical home that uses both electricity and gas, and pays by direct debit, will go down by 7% to £1,720 per year - reducing ...

But, I discovered that energy companies offer special rates for EV owners, which could drastically cut the cost of motoring. And one of the best comes from Octopus. What is Intelligent Octopus Go? Intelligent Octopus Go ...

Smart Export Guarantee The Smart Export Guarantee (SEG) which is legislated by the Government, came into force on 1 January 2020, following the closure of the Feed-in Tariff (FiTs) in 2019. The scheme is designed to

Octopus energy flexible tariff

provide ...

At Octopus our variable energy tariff is called Flexible Octopus. If you'd like to confirm which tariff you're on, and details like your current prices and contract dates, you can see them on your ...

Intelligent Octopus Go is worth it for many electric vehicle drivers, as it's a flexible, money-saving tariff - but it's not the right choice for everyone. If you have an EV and a large solar & battery system, and export most of the ...
