

Here you will find different systems and accessories to mount solar panels on your house or RV. Please make sure you buy the right equipment which not only suits your needs but also fits together. Especially when ordering solar rail systems, the clamps come in all different varieties and shapes the left example you can...

This subreddit is for discussions about prepping, with the primary focuses being on: Food & Water: (disinfecting, storage, growing, harvesting, hunting, etc) Survival Strategies: (long and/or short term) Off-grid energy: (wind, solar, hydro) Gear Question"s: requests/reviews of your actions/ideas/gear Other: Use common sense here please, and read the rules below

Automatic Wire Stripper from 0.5mm to 6mm cables. Features a cable cutter and crimp tool for non insulated terminals as well and makes it a multi purpose tool for all kind of cabling work. It can also be used to crimp MC4 connectors but I still prefer the ...

Seems like the "Jabada" BMS are very popular. You need to turn off "Charge Balance" though to make balancing working. With charge balance on (default setting), it will take a very long time to balance your cells, if it works at all...

On this page, you will find some battery DIY-Kits, I have tested on the channel. These are mainly pre-configured battery cases with all accessories included. It's a battery construction set where you can build your own battery with great success and in a timely manner.Scroll a bit further down for 12V and 24V DIY Boxes....

Automatic Wire Stripper from 0.5mm to 6mm cables. Features a cable cutter and crimp tool for non insulated terminals as well and makes it a multi purpose tool for all kind of cabling work. It can also be used to crimp MC4 connectors but I still ...

DC-DC Converters, or buck converters, are little electronic circuits which help you power your devices directly from your battery. They convert voltage and current to suit your load. This can be from a higher voltage to a lower one or vice versa. Buck-Converters come in two variants:- the buck-down converters lower the voltage from your...

being turned on . My ...

One of the most important parts of your solar battery storage system is the inverter which transforms the DC battery voltage back to AC 120V/230V. To select the right inverter for your needs, it is essential to know your load, so basically what do you want to power form your batteries. Add up all your...

1 review and 5 photos of OFF THE GRID GARAGE "Sometimes you meet someone that restores your faith that there are good honest thoughtful people who run a local family business and it is like a light bulb being turned on . My 87 old father in law lives alone and has two vehicles that he attempts to get his air conditioning fixed and each one ...

Terminal BlocksPush-in contacts, 800V/31A, 0.2-4mm cable connectorsThey also have end plates, mounting clamps and numbering on their website.I use these for connecting the BMS to my cells. For testing other BMS's or balancers I can quickly disconnect and switch to another device.Single (one entry, one exit) AliExpress product linkSingle, pack of 50 AliExpress ...

Off grid Garage system set up. Thread starter Ktmart119; Start date Jan 24, 2024; K. Ktmart119 New Member. Joined Jan 24, 2024 Messages 4 Location 12533. Jan 24, 2024 #1 I am very new to the solar world but have recently built a 22x24 garage that I want to power with a stand alone system. I believe, to run a three to four lights for a minimal ...

On this site, I'm publishing the data I have collected during my experiments and tests with mostly LiFePO4 cells. I use the ZKE-Tech EBC-A20 and ZKE-Tech EBC-A40L tester for that. Links to both devices can be found here.If you don't have any of these testers but you still would like to analyse the data, you...

Probably better off doing a cheap off grid setup (12V battery, solar panel, charge controller,and 120V inverter) and pairing it with a chaep garage door opener. Then at least you'll have an outlet and some lights in there as well.

Take a live sneak peak at the Off-Grid-Garage in the Victron VRM World The S.P.A.T. Calibration Centre VRM link (new PowerWall 2.1) Here is a step-by-step manual on how to connect your Victron equipment to the Victron VRM to ...

On this site I have collected all information about how to connect different BMSes to the Victron Venus OS. This will work with any Victron GX device or the Raspberry Pi running Venus OS.BMS Communication can be used just for information purposes, so you can monitor your BMS while away from home, or for fully...

When it comes to living off the grid, having a reliable and efficient battery storage system is essential. Luckily, there are numerous innovative solutions available, from lithium-ion batteries to flow batteries, allowing you to harness and store energy to power your off-grid lifestyle with ease.
