Omnis Solar Power provides a variety and a wide range of high-quality, high-performance, and lasting reliability PV modules to fit your solar project's needs. Our solar cell technology is ...

Omnis Solar Power is committed to the corporate responsibility that comes with being in our industry, and we have taken a special interest in addressing the needs of the world. we are fully committed to the global. OUR LOCATIONS. USA Headquater. 100 N Howard ST STE R, Spokane, Washington 99201, USA.

The temperature coefficient of a similar P-type module is $-0.35\%/^{\circ}\text{C}$ while that of N-type is modified to $-0.30\%/^{\circ}\text{C}$. This means the power generation performance is particularly outstanding at high temperature. Omnis Solar Power's N type module power will increase with the better temperature coefficient (0.75% higher compared with PERC).

OUTSTANDING PERFORMANCE. With years of experience in the production of modules, our new half-cell bifacial module offers a range of improved features such as higher reliability, less mismatch, maximum power output, and minimal hot-spot effects.
