

Oneida storage Iceland

Who owns the Oneida energy storage project?

Credit: Northland Power. Canadian energy company Northland Power has finalised an energy storage facility agreement with Canada's Independent Electricity System Operator (IESO) for the Oneida energy storage project. The Oneida project is claimed to be the country's largest battery energy storage project and among the largest in the world.

How will Oneida energy storage benefit Ontario?

In addition, the energy storage facility will help stabilize Ontario's electricity sector by providing important grid balancing services. Oneida Energy Storage is expected to provide significant benefits to provincial ratepayers by reducing the need and cost associated with using gas-fired power plants during times of peak demand.

How much money will Oneida energy storage LP invest?

We will invest up to \$535 million in the project, located in Southwestern Ontario. Under the terms of the investment, Oneida Energy Storage LP, together with private sector lenders, will finance the balance of the project's capital cost.

What is the IESO agreement with Oneida energy storage LP?

Following a directive from the Minister of Energy, the IESO has finalized a 20-year agreement with Oneida Energy Storage LP. The 250-megawatt (MW) storage project is being developed in partnership with the Six Nations of the Grand River Development Corporation, Northland Power, NRStor and Aecon Group and is expected to be operational in 2025.

What does Oneida energy storage LP Do?

Oneida Energy Storage LP will create internship opportunities for Six Nations community members and result in training and employment opportunities. We will invest up to \$535 million in the project, located in Southwestern Ontario.

What is Oneida & how does it work?

Oneida is a first of its kind project at the forefront of Canada's emerging energy storage sector and is paving the way for other projects like it. Oneida is really the blueprint for successful public-private partnership and collaboration.
