

Opes solution Aruba

Where are Ops Solutions located?

Business & Product development are located in Berlin and Shanghai. The research and development partners of OPES Solutions include the Fraunhofer Center for Silicon Photovoltaics. Innovation needs validation in the field. Our field trips help us understand how people use our solar panels and how we can further improve them for #EnergyAccess.

What certifications do Ops solutions have?

OPES Solutions soon became the first manufacturer globally to obtain IEC 61215/61730 certification for the full range of off-grid solar modules, even as small as 0.9 Watt. In the same year, we obtained the QEHS certificate based on ISO9000, ISO14000, and ISO34000.

What makes Ops a great supplier?

In particular, we appreciate having a supplier that does not require constant supervision to ensure product quality is maintained. OPES is one of those rare manufacturing success stories where a focus on the customer, patience and a commitment to ongoing improvement pays off.

The technology company OPES Solar Mobility has selected the location of its new solar factory. In the German town of Zwenkau, solar technology for vehicles such as trucks, motor homes and buses is produced on more than 12,000 square meters. The facility will commence production by the end of 2024. The production capacity of the new plant will be ...

OPES Solar Mobility. Der Transportsektor befindet sich im Wandel und bietet die große Chance nachhaltiger und effizienter zu werden. Daher haben wir OPES Solar Mobility gegründet, um effiziente, solargestützte Transportlösungen voranzutreiben. Unsere Solarmodulfabrik in Zwenkau ist ein wichtiger Meilenstein für uns, angetrieben von unserem ...

OPES Solutions designed and supplied the energy for the Esteban 9 solar racing car by Polytechnique de Montréal. Our team won the "Best Electrical Design Award" and "Dynamic Award" of the competition. Esteban 9 is also the ...

Berlin, 01. September 2023: The upcoming Euro 7 emissions standard and mandatory CO2 savings targets - the transportation industry faces an urgency to reduce emissions and push the electrification of vehicles. OPES Solar ...

Solar technology company OPES Solutions and Europe's leading motorhome manufacturer Westfalia have developed a powerful solar solution for vehicle-integrated photovoltaics for camper vans. This is the first time that large solar panels are part of the...

From design until mass production OPES Solutions ensures that the solar panels are efficiently made for the required specification. We have already produced millions of client-specific solar modules. The solar panel design is optimized for mass manufacturing from the very beginning and we scale the production according to the growing volume.

OPES Solutions designs and manufactures a wide range of solar modules for applications in various industries, such as solar home systems, automotive, micro mobility, lighting, traffic technology, tracking systems, IoT and industries ...

OPES Solutions and Westfalia: Vehicle-integrated photovoltaics enter series production . Solar technology company OPES Solutions and Europe's leading motorhome manufacturer Westfalia have developed a powerful solar solution for vehicle-integrated photovoltaics for camper vans. This is the first time that large...

OPES Solutions | ????? 204 ?????Leading manufacturer of custom solar panels for energy access, self-charging devices and sustainable mobility. | OPES Solutions is a leading manufacturer of custom off-grid solar panels. The company designs and produces various types of solar panels suitable for a wide range of applications, including industries where solar was ...

Off-Grid Solar. Solar panels are the most efficient way to provide energy to people who are not connected to a (reliable) grid. Off-Grid Solar transforms people's lives and has a sustainable economic, social and environmental impact.
