

According to ICSC Chief Data Scientist Jephraim Manansala, this rise in unregistered solar affects how distribution utilities plan and manage the grid. SPECTRUM classifies rooftop solar into ...

Poland has emerged as Europe's fastest-growing solar market in 2025, with photovoltaic capacity increasing by 48% year-on-year in the first quarter alone. The government's "My Electricity ...

As part of this year's renewable energy auction organized by the Polish Energy Regulatory Office (URE), VSB has secured a contract for difference (CfD) for a 303 megawatt-peak (MWp) solar park: the largest solar project in the history of ...

It resulted in a residential rooftop market collapse of over 60% versus 2023 in most of the group. Similarly, Poland, Spain, and Germany are experiencing a decline of over 40%. Good news ...

The Role of Solar Farm Repair Specialists in the Renewable Energy Sector Ensuring Continuous Uptime In the utility-scale solar world, every hour of downtime equals lost revenue. Solar farm ...

The new analysis predicts that utility-scale solar is expected to continue growing in the EU this year. In 2025, the segment will likely contribute to around half of all new capacity additions. ...

As a single-source supplier of electrical balance of system solutions for residential, commercial and utility solar power installations, we can help you throughout your project's lifecycle - from securing project financing to utility ...

Poland added 637 MW of new photovoltaic (PV) capacity in the first quarter of 2025, taking total installations to nearly 22 GW, data from the Institute for Renewable Energy (IEO) showed.

To get the year started off right, we're highlighting some of the solar-related concepts that we think are particularly important to understand in 2025. We know that to reach our solar and ...

VSB Group has recently secured a significant contract for a solar energy project in Poland, marking a substantial step forward in the country's renewable energy sector. With a capacity of 303 megawatts peak (MWp), this solar park, located ...

Why Understanding Solar Controllers Is Critical For C& I And Utility-Scale Projects Solar controllers play a central role in managing the complexity of commercial and industrial (C& I) and utility-scale solar installations. They act as the system's ...

Poland utility-scale solar

The International Renewable Energy Agency's latest report finds little change in the global average levelized cost of electricity for utility-scale solar plants year-on-year, while the global ...

Poland ranked among the European Union's top solar energy producers last year, with investment in photovoltaic (PV) capacity exceeding PLN 12 billion (USD 3 billion), according to a new ...

Poland utility-scale solar
