What is powercube-h1?

This manual introduces PowerCube-H1 from Pylontech. PowerCube-H1 is a high voltage Lithium-Ion Phosphate Battery storage system. Please read this manual before you install the battery and follow the instruction carefully during the installation process. Any confusion, please contact Pylontech immediately for advice and clarification.

What should I do if my powercube-h1 H2 is not working?

Please contact with distributor or Pylontech. Danger: The PowerCube-H1/H2 is a high voltage DC system, operated by qualified and authorized person only. Danger: Before replace the main component must shut off the maintenance battery string's power. Must confirm the D+ and D- terminal are without power. The turn off progress refer to chapter 3.6.5.

What is the communication mode between MBMS & BMS of 1st powercube-h1/h2?

The communication between the MBMS and the BMS of 1st PowerCube-H1/H2 uses CAN communication mode. Note: The 1st PowerCube-H1/H2 should be installed nearest to the MBMS. ADD Switch BMS is a 6 bit dial switches to manually distribute the communication address of the battery system.

PowerCube-H1/H2 is a high voltage battery storage system based on lithium iron phosphate battery, which is one of the new energy storage products developed and produced by Pylontech. It can be used to support reliable power for various types of equipments and systems. PowerCube-H1/H2 is especially suitable for those application scene which ...
