

Qcell 400 spec sheet pdf

are these compatible with an Anker 767 Powerhouse?if not which ones are?

Yes, but make sure you connect no more than 1000W. That's what the manufacturer recommends

Are these panels compatible with the IQ8+ microinverter?

Yes, they are compatible.

Given the high power, would it be advisable to use it for a residential install?

There is absolutely no reason not to consider it for residential application, just keep in mind the larger dimensions of this model.

Is there a minimum order size for delivery? What about pickup?

At the moment of writing the minimum order size for delivery of this item is 10 panels. There is no minimum if you opt for pickup.

Jinko JKM390M-72HBL-V-D1 390W Black on Black 144 Half-Cell Mono Solar Panel Jinko, 390W PV Module, MC4, 1400mm (~55") PV Wire, 40mm Black Frame, Black Back Sheet, BOB, 144 Mono PERC 1/2 Cells, 20A Fuse, ...

LG and Qcells are two of the leading giants that always offer cutting-edge technology and high-performance solar products with strong warranties. But which one really stands out for your specific requirements and energy goals?
