Welcome to Solar Energy Caribbean, your top choice for solar energy solutions in Trinidad & Tobago. We help save on T& TEC bills and guard against power outages with our renewable energy systems. Our team of experienced electricians and roofers specializes in both residential and commercial solar panel installations, with over 13 years of expertise.

The Trinidad & Tobago Solar Initiative In a significant expansion of our global footprint, we are proud to play a pivotal role in a landmark project in Trinidad and Tobago. This initiative marks the country's first solar plant, an ambitious endeavor poised to generate approximately 330,000 MWh of green electricity annually.

The plant for Trinidad would cost about US\$100-150 million, on 150 hectares of land and provide 100 megawatt hours. Vogt added that it would be an attractive project from the point of view of foreign direct investment, a new tax base, and long term local jobs - and of course, extra revenue from gas that was sold instead of used to generate ...
