

To uncover the underlying mechanisms, we compare two behavioral responses: green innovation, marked by long-term investment in green technologies, and expedient compliance, involving ...

The Indian government is working on modalities to mandate public procurement of green steel to reduce carbon emissions in the steel industry as part of its Green Steel Mission, estimated at ...

According to Mr. Israel Ochwo, the Deputy Head of SH-ACU, who addressed journalists during a press briefing on Wednesday, the scammers posed as senior government officials within the ...

While ten years have passed since the Paris Agreement, global efforts to reduce emissions are still lacking, with recent UN projections indicating that the world is on course for a temperature rise of 3.1°C by 2100 - well ...

The findings indicate that optimizing the industrial structure can lead to reduced carbon emissions, with green regulation, technology, and finance serving as mediators in this process. It is worth ...

The launch of the 6.3 MW solar power plant in Moroni marks a significant milestone in the Comoros' journey towards sustainable energy. With international support and a clear vision for ...

Many different options to manage atmospheric CO₂ concentrations exist, including a multitude of emission abatement methods as well as various carbon dioxide removal (CDR) technologies. ...

Scientists and engineers aim to create more efficient and cost-effective methods for capturing and converting carbonyl compounds. They also seek to develop real-time monitoring systems to ...

SA Pushes for EPC Compliance as Over 7,000 Buildings Register Before Deadline The push forms part of a broader national effort to enhance energy efficiency, reduce carbon emissions, and save on long-term energy costs.

In a pioneering breakthrough that could reshape the energy landscape, scientists have developed a novel catalyst capable of efficiently transforming carbon monoxide emissions into clean, ...

Carbon emissions in Reading have fallen by more than half over an 18-year period, new government figures show. The Berkshire town has seen the 12th biggest reduction in emissions out of the UK's ...

Reduced carbon emissions moroni
