

Redx energy United States

How much does a REDX battery cost?

As the battery offers 4.32kWh usable capacity, this means the retail cost is around \$1,300 per kWh making them one of the more expensive battery options on the market. Redx offers a 10 year warranty for their batteries which is split into 7 years 'onsite warranty' and 3 years 'return to base warranty'.

Who is REDX technologies Australia?

Redx Technologies Australia is an Australian-owned company founded in 2016 by Jonathan Chen. Redx focuses on inverters and battery storage solutions. Their headquarters is located in Helensvale, QLD, Australia and their products are manufactured in Dongguan, Guangdong, China.

Does REDX offer a warranty?

Redx's warranty is also limited to 4,000 cycles of the battery, which allows for customers to complete one cycle per day. One upside of Redx's warranty offer is they have strong local support with their Australian office and clearly set out online process for applying for a warranty.

Will Redflow build a 20 MWh battery energy storage system?

From pv magazine Australia Brisbane-based battery maker Redflow will build a 20 MWh zinc-based battery energy storage system as part of a large-scale solar and storage project planned for northern California after securing AUD 18 million (\$12 million) in funding from the California Energy Commission.
