

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

By 2035, system costs could rise in both geographies, renewable energy adoption may stall in the United States, and solar and wind deployment could soften in the EU. The analysis also suggests that higher tariffs would increase the share of ...

The year 2024 was a milestone in the global energy transition. Renewable energy didn't just make gains, it shattered records and established itself as the undisputed economic powerhouse of ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

India added a record 22 gigawatts (GW) of renewable energy capacity in the first half of 2025, marking a 57 per cent increase from the 14.2 GW installed in the same period last year, ...

NTPC Green Energy Limited (NGEL) isFresno County will be site of CA's largest solar project. How it impacts residents Saudi Arabia and Syria sign energy cooperation agreement in Riyadh ...

Pilot tests of an aquifer thermal energy storage (ATES) system are underway by Mitsubishi Heavy Industries Thermal Systems and Osaka Metropolitan University in Osaka, Japan. The system ...

Renewable energy, usable energy derived from replenishable sources such as the Sun (solar energy), wind (wind power), rivers (hydroelectric power), hot springs (geothermal energy), tides (tidal power), and biomass ...

News on renewable energy growth across Sub-Saharan Africa, from solar PV and wind farms to hydropower and hydrogen initiatives. Stay informed on new project developments, regulatory frameworks, and financing deals ...

Botswana's National Energy Policy emphasizes diversification of energy sources and increased use of renewable energy, setting a favorable backdrop for EV growth. As electric vehicles ...

The United Nations reports a global shift toward renewable energy, calling it a "positive tipping point." Tuesday's U.N. reports reveal that 92.5% of new electricity capacity in 2022 came from ...

Energy efficiency, energy security and the cost of energy supply are critical. Zutari supports our clients to fuel responsible growth that makes sound business sense. We support the industry's evolution towards automated, ...

In the future, au Renewable Energy and Winfield also plan to partner on developing grid-scale battery storage facilities. au Renewable Energy, an 80:20 joint venture between au Energy ...

The MoU covers the development of battery energy storage systems (BESS) and renewable energy projects, including solar and hybrid solutions, to strengthen the state's energy security ...

Search English ?????? ???? ?????? GOVERNMENT OF INDIA ???? ??? ?????????? ?????? ?????????? MINISTRY OF NEW AND RENEWABLE ENERGY Home About Us ...

By incorporating storage, thermal plants can absorb excess renewable energy during peak generation and discharge it when renewable output is low or demand is high, maintaining a ...

It paves the way for the joint development of battery storage and renewable energy facilities aimed at enhancing the state's energy resilience and aligning with national sustainability goals.
