

CBE provides distributed renewable energy solutions through an innovative energy-as-a-service model, offering comprehensive systems that integrate solar photovoltaic, wind, battery energy ...

The International Energy Agency (IEA) projects that achieving a 50% reduction in emissions by 2050 will require a comprehensive energy transition, in which renewable energy will play a ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

This obligation shall be treated as fulfilled only when at least 85% of the total energy stored is procured from Renewable Energy sources on an annual basis. There are several energy storage technologies available, broadly - ...

General Mamadi Doumbouya, Transitional President, Guinea-Conakry has authorized the construction of a 40 MW solar plant in Kindia. Once completed, the Khoumaguéli Solar Power Station - the first solar PV facility in the country - ...

Equatorial Guinea hydroelectric project: The Sendje Energy Revolution Equatorial Guinea is on the verge of transforming its energy landscape with the ambitious Sendje Hydroelectric Plant ...

Battery storage, hybrid systems, combining solar, wind and BESS as well as digital technologies are increasingly vital for integrating variable renewable energy. Artificial intelligence (AI) ...

The growing adoption of hybrid renewable energy systems that combine solar power with wind, battery storage, and diesel generators is a major opportunity for the Asia Pacific solar tracker ...

SBM Offshore will exit Equatorial Guinea after divesting its stake in FPSO Aseng to state-owned GEPetrol, marking a shift towards African energy sovereignty amid global transition pressures.

Construction has officially commenced on the Santa Teresa solar and storage facility, a significant renewable energy facility in Doña Ana County, New Mexico. Developed by DESRI (D. E. Shaw ...

By investing in renewable energy, the EIB is helping to create a more sustainable future for African countries. The \$78 million funding package approved by the EIB for the solar project in ...
