

Hybrid energy systems that integrate renewable energy sources are driving the green energy revolution and playing an increasingly vital role in supporting sustainable transportation ...

A man refuels a hydrogen fuel cell logistics vehicle in Chongqing. [Photo/Xinhua] Sector to play key role in achieving nation's emissions targets China's top economic planner has unveiled its latest blueprint for the hydrogen ...

WILMINGTON, DE, UNITED STATES, July 3, 2025 / EINPresswire / -- According to a new report published by Allied Market Research, titled, "Fuel Cell Market," The fuel cell market size ...

Further inland, Hydrogen Pilot Cities like Ulsan and Ansan are deploying residential fuel cells, hydrogen-powered buses and cars, and building dedicated hydrogen pipeline networks.

Fusion Fuel Green PLC (NASDAQ: HTOO) provides integrated energy engineering, distribution, and green hydrogen solutions through its Al Shola Gas and BrightHy Solutions platforms. With ...

To build a modern-day electrical grid with the flexibility and resilience to handle ebbing and flowing energy sources like solar and wind power, West Virginia University engineers have designed ...

As China put forward its dual carbon goals-peaking carbon emissions before 2030 and achieving carbon neutrality before 2060-hydrogen fuel cell vehicles are expected to welcome a period of evolution, according to ...

Abstract In proton exchange membrane fuel cells (PEMFCs), ionomer aggregation on Pt/C catalysts leads to increased oxygen transport resistance of conventional catalyst layers. This ...

Ensuring uniform fluid distribution in high-power fuel cell stacks is crucial for automotive applications. This study introduces and evaluates novel X1- and X2-shaped manifold designs ...

The market is set to grow due to strict emission rules and distributed power demand, though high costs and limited fuel infrastructure may hinder progress. Fuel cells are redefining clean energy ...

The Global Fuel Cell Technology Market size was USD 11.05 Billion in 2024 and is projected to reach USD 13.01 Billion in 2025, ultimately growing to USD 46.06 Billion by 2034, exhibiting a ...

Detailed info and reviews on 13 top Fuel Cells companies and startups in United States in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.
