

JSW Energy, through its step-down subsidiary JSW Renew Energy Forty Five has signed a 25-year power purchase agreement (PPA) with Bangalore Electricity Supply Company Limited (BESCOM). The agreement is for a grid-connected ...

Supporting the equitable scale-up of those technologies, and the development of applications and markets, is the task of state policy and regulation. Energy storage not only enables the integration of higher levels of ...

As renewable energy uptake rises, it will be crucial to monitor high-growth areas of expansion, like offshore wind and distributed systems, full-cost factors of incorporation like storage and smarter grids, as well as the flexibility ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

On July 21, 2025, a major milestone in China's clean energy development has been achieved with the successful completion of Hami's first large-scale vanadium flow battery energy storage ...

Google has signed its first partnership with a long-duration energy storage (LDES) company. The tech giant signed a long-term partnership with Energy Dome to support multiple commercial ...

China's renewable energy storage sector is undergoing a seismic shift, driven by urgent decarbonization targets and the rapid integration of intermittent renewables like wind and solar.

The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents the first ...

A global developer of grid-scale energy storage projects said it has closed project financing and completed a 10-year offtake agreement for a battery energy storage system (BESS) installation in ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

Rmp energy storage

Industry estimates show that China's power storage industry will have up to 100 million kilowatts of installed capacity by 2025, and 420 million kW installed capacity by 2060, attracting related investment of over 1.6 trillion ...
