

The National Energy Regulatory Authority (ANRE) announced on July 8 a new framework that eliminates the double taxation of electricity stored in battery energy storage systems (BESS), ...

Alessandro Amato, CEO of Waldevar Floating PV Systems, added the project is a breakthrough in integrating hydropower and solar energy, unlocking Romania's solar potential in hydropower ...

Renewable energy communities (RECs) are increasingly recognized as pivotal instruments in the global energy transition, offering decentralized, participatory, and sustainable solutions for ...

Battery Energy Storage Systems (BESS) are at the center of this transformation, with new tenders and financing tools paving the way for increased deployment in the coming years. In this ...

With the support of the Romanian Environmental Association, the 2026 edition marks the launch of a strategic collaboration between Romania and the Republic of Moldova. This initiative offers exhibitors extended access to a ...

Amid a battery investment frenzy in Romania, Nova Power & Gas is about to build a battery energy storage system that would double the current total capacity in the country. In addition, ...

Romania's National Energy Regulatory Authority (ANRE) has taken aim at accelerating energy storage solution deployment by eliminating the double taxation on stored electricity. This ...

Blue Carbon specializes in solving grid challenges by developing stable, efficient, and cost-effective independent power systems. With cutting-edge energy storage solutions and innovative solar technologies, we provide ...

The reform aims to eliminate "double taxation" on stored energy--a major obstacle to wider adoption of battery and pump-storage hydro systems. Only electricity reintroduced into the grid ...

Part of the Romanian E-Infra Group, Nova Power & Gas announced the launched of the largest battery energy storage project in Romania. The installation in Floresti, Cluj county, will have ...

We are seeking an experienced and results-driven Asset Manager to take full responsibility for a growing portfolio of solar PV and battery energy storage system (BESS) projects in Romania. ...

This paper presents a numerical simulation study evaluating carbon dioxide capture and storage (CCS) feasibility for the Turceni Power Plant in Oltenia, Romania, using the nearby depleted ...

Romania energy storage systems
