

In line with its 40th anniversary, SM Supermalls has unveiled the largest rooftop solar photovoltaic (PV) system on a commercial building in the country at SM City Fairview, reinforcing its ...

The purpose of the investment &quot;Floating photovoltaic panel system - NUFARUL pilot project&quot; is to create a new capacity for the production of electricity from renewable sources, through a ...

The SMTL Solar Bughea project is currently in a ready-to-build stage, possessing all necessary permits and approvals for construction. Its development was initially separate from Simtel ...

A DC isolator (also called a DC switch-disconnector) is a safety device that provides complete electrical isolation in direct current systems, particularly in solar photovoltaic installations.

A grid-connected PV system is connected to the local utility grid. The exchange of electricity units between the system and the grid occurs through the net metering process. Learn how this system works and how much it costs.

The mounting structure is the backbone of any solar photovoltaic (PV) system, tasked with supporting panels for 25 years or more under diverse weather conditions. But not all materials ...

Minimum 2 years of experience in electrical installations, working on large-scale PV projects, preferably in Romania Knowledge of solar PV systems, inverters, transformers, and switchgear.

The purpose of the investment objective &quot;Floating Photovoltaic Panel System - NUFARUL Pilot Project&quot; is to establish a new electricity generation capacity through a photovoltaic power plant ...

NEPI Rockcastle is building a 54.1 MW photovoltaic park in western Romania, designed to provide almost half of the electricity needs of its commercial assets by 2026. In partnership ...

CEO Alessandro Amato emphasized that the company will employ advanced solutions to optimize performance, strengthening its position as a leader in the floating photovoltaic sector. This ...

Romanian renewables developer Enexus said on Wednesday that it has signed a contract with Turkish renewables investor Akis Enerji, part of the Ulusoy Enerji Yatirimlari group, for the ...

The purpose of the investment objective "Floating photovoltaic panel system - NUFARUL pilot project" is to achieve a new electricity production capacity through a photovoltaic power plant located in the southern area of Romania, in Olt ...
