

The Battery Liquid Cooler market is experiencing robust growth, driven by the increasing demand for efficient thermal management solutions in the burgeoning electric vehicle (EV) and energy ...

Ukraine confirmed strikes on the Energia factory in Russia's Lipetsk Oblast overnight on July 3, a facility that produces components for missiles and drones, including batteries for the Iskander ...

Russian officials say 48 people were killed when an Angara Airlines plane went down in a dense forest in the far-eastern Amur region. The Antonov An-24 plane, carrying 42 passengers and six crew ...

The global battery tab material market, currently valued at \$912 million in 2025, is projected to experience robust growth, driven by the burgeoning electric vehicle (EV) industry and the ...

A drone strike targeted the Energia battery plant in the city of Yeltsy, Lipetsk region, setting off explosions and a fire at one of Russia's most strategically important defense facilities, with ...

The Russian plant also produced batteries and accumulators for Iskander-M operational-tactical missile systems, Kh-35U sea-launched cruise missiles, and power modules for specialized ...

A bill Iowa Congressman Zach Nunn is co-sponsoring would impose new sanctions on Russia as it continues attacking Ukraine, "to send a clear message to Russia: the world is watching and ...

An Iowa State University researcher is using a special tool to test the limits of lithium-ion batteries. Todd Kingston says the device called the accelerating rate calorimeter or ARC. "It [...]"

Ukraine said it carried out an overnight drone strike against a plant that produces batteries and accumulators for Russian military equipment in the Lipetsk region, about 350 kilometers south ...

The RV energy storage battery market is experiencing robust growth, driven by the increasing popularity of recreational vehicles (RVs) and the rising demand for off-grid power solutions. ...

A Patriot air defense battery in Kyiv was reportedly destroyed this week following coordinated Russian strikes using Kinzhal hypersonic missiles and Iskander-M ballistic systems. This is ...

On the morning of July 15, drones targeted the PJSC Energia facility in Yelets, Lipetsk region. The attack was reported on social media, where local residents shared footage of the incident. This ...

All 48 people aboard an Antonov An-24 passenger plane that crashed in Russia's Far East on Thursday were

Russia battery safety

killed, regional authorities said, while police investigators announced they had launched ...

Ukraine's Unmanned Systems Forces carried out a strike on the Energia plant in the city of Yelets, Lipetsk region, Russia, on the night of July 3. This plant produced batteries and accumulators ...

Polish and allied aircraft were activated on Monday to ensure the safety of Polish airspace after Russia launched missiles strikes targeting western Ukraine, near the border with the Poland, ...

The battery multilayer separator market is experiencing robust growth, driven by the burgeoning demand for electric vehicles (EVs) and energy storage systems (ESS). The market's ...

The global Battery Charger Controller market is experiencing robust growth, driven by the escalating demand for portable electronic devices, electric vehicles (EVs), and renewable ...

Abstract While lithium-ion batteries have their difficulties, the demand to improve beyond-lithium batteries goes beyond the issues of sustainability and safety. With the pressure for renewable ...

Ukraine confirmed strikes on the Energia factory in Russia's Lipetsk Oblast overnight on July 3, a facility that produces components for missiles and drones, including batteries for the...

The global Battery Protection Device (BPD) market is experiencing robust growth, driven by the burgeoning demand for electric vehicles (EVs), energy storage systems (ESS), and portable ...
