

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energía (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

SABROE provides a range of energy-efficient standardised packaged chiller configurations, all based on high-efficiency SABROE reciprocating and screw compressors that are world-renowned for their reliability.

ON Energy Storage installing a 30kW / 60kWh behind-the-meter battery storage system for a commercial customer in Mexico in 2019. ... crisis, emissions reduction, environment, fossil fuels, frequency regulation, front-of-the-meter, industrial competitiveness, latin america, mexico, peak shaving, pollution, power quality, regulation, revenue ...

Latin America and the Caribbean need to double its financing for clean energy projects to US\$150 billion by 2030 to fulfil the Announced Pledges Scenario (APS), according to the International ...

Data centres and the cloud are again in the news in Latin America thanks to announcements from Google in Chile and Codisa in El Salvador. Internet search giant Google says it has inaugurated a cloud region in Santiago, its second in Latin America (it opened a Brazilian region in São Paulo in 2017) and its 29th globally.

Energy Storage Latin America. Join GSC Taking place in the vibrant hub of Santiago, Chile, the Energy Storage Summit Latin America will return in October 2024, bringing together over 250 knowledgeable delegates, keynote speakers, and panelists to discuss the challenges, trends, and future opportunities for energy storage in Latin America. ...

Meanwhile Energy-Storage.news reported a few days ago that work is underway by Chile's first solar-plus-storage system - which also helps integrate wind power - and is Latin America's biggest battery storage system so far at 112MW / 560MWh, through the local subsidiary of AES Corporation.

The projects are the latest in a flurry of renewable energy development activity in the country as it seeks to hit 70% renewable electricity generation by 2030, and come as our publisher Solar Media prepares to host ...

Huawei Digital Power has reinforced its leadership role in the energy transition at Paraguay's IX Energy Week in Asunción. The event brought together experts from across the region to discuss ...

Developer On.Energy is deploying 39MWh of battery energy storage systems (BESS) at airports across Latin America (LATAM), Energy-Storage.news can reveal. C& I specialist On.Energy secures US\$100 million in financing for ...

According to its Strategic Plan 2023-2026, the IPP will commit US\$2.6 billion to these expansions, with US\$1.5 billion allocated to solar PV and US\$800 million to energy storage. Of its three major operational markets - the US, Europe and Latin America - Grenergy highlighted Chile as a fulcrum for leveraging up its solar and storage businesses.

Listed company Shenzhen CLOU Electronics says it has secured a contract with a "famous American energy company" to supply an energy storage system totalling 485MWh in South America. It did not reveal the buyer or precise location but said that the project consists of 168 sets of its 20-foot energy storage container solution.

Also currently under construction in Chile is Latin America's largest lithium-ion battery energy storage project so far at 112MW / 560MWh by AES Corporation. Highview Power meanwhile is targeting the global need for long-duration bulk energy storage that it believes is coming down the line and is already here in some places.

The technology was explained in its EIA review a little over a year ago, covered by Energy-Storage.news at the time. The energy storage unit would use a system of salts heated to 310-560°C, which would then enter a water/salt heat exchanger to release the stored thermal energy and generate steam to move a turbogenerator.

A blackout at an airport can have global ramifications. Image: Rawpixel . Developer On.Energy is deploying 39MWh of battery energy storage systems (BESS) at airports across Latin America (LATAM), Energy-Storage.news can reveal. The Miami-based company is deploying the units at 11 undisclosed airports across Latin America.

Energy Savings from DCV strategies offer potential for 10 to 70% energy savings CARBOCAP; single-beam, dual-wavelength design provides superior performance compared to other technologies CARBOCAP Silicon, Micro-machined Construction provides reliable CO2 measurement in room environments

SOFAR and BelEnergy to collaborate to boost renewable energy development in Latin America. By SOFAR. December 10, 2023. ... distribution of the company's extensive solar and storage portfolio. ...

AES Gener has held a virtual groundbreaking ceremony to mark the start of construction on a 112MW / 560MWh battery energy storage system project in Chile, Latin America. ... is the biggest battery storage system ...
