Saint Barthélemy is an island territory of France in the Caribbean that is north of Saint Kitts and Nevis. It's capital is Gustavia. Saint Barthélemy has a population of around 9.7k (as the current game is using the 2017 population). [Insert number here] When you pull Saint Barthélemy, you...

Astrophysicists have long known that when a Sun-like star runs out of fuel, it becomes a red giant, big enough to engulf any close-orbiting planets. The growth occurs when a star exhausts the hydrogen fuel in its core and the fusion reactions that make the star shine spread outward in search of more fuel, swelling the star's outer layers.

After Hurricane Irma, satellite images indicated a widespread browning of many Caribbean islands in the storm's destructive path. These natural-color images, captured by the Operational Land Imager (OLI) on the Landsat 8 satellite, show Barbuda (above) and Saint Barthélemy (below) before and after the storm. The views were acquired on August 27 and September 12, 2017.
