Who is Sol-Lucian?

The Sol-Lucian team has a wealth of experience in the electric utility sector, as well as an extensive background in entrepreneurship and business development. Current clients range from residential installations, to those for large commercial enterprises, including our most recent project at the Computer World building at Bois d'Orange.

"Solar" is the Latin word for "sun" - and it's a powerful source of energy. The sun provides energy in two forms - light and heat. The sun can be used to heat water and air in our homes and businesses (If you've seen a house with big shiny panels on the roof, that family is using solar power.) ... St. Lucia Electricity Services ...

A diversified portfolio of solar, wind and diesel was considered optimal in helping Saint Lucia reach its goal of 35 per cent renewable energy penetration by 2020. Such collaboration between a utility company and government is unusual in the region, and another way in which Saint Lucia is spearheading change.
