El Tier 1 de los paneles solares, es una lista realizada y actualizada cada 3 meses por Bloomberg de los fabricantes solares que más comercializan y por ello en teoría ofrecen un grado de solvencia en cuanto a estabilidad de la empresa y garantía futura. Esto quiere decir que hablamos de una empresa financieramente est

BloombergNEF's tiering system for PV module makers is based on bankability, but should never replace a proper due diligence process in product selection. This document lists manufacturers meeting the criteria as of 4Q 2024.

By Jenny Chase, Lead Analyst, Solar, BloombergNEF The global PV industry is expected to install 592 gigawatts of modules this year, up 33% from the boom year of 2023. Low prices for modules are stimulating demand in new markets, but hurting manufacturers, who are competing intensely to maintain market share.
