San Marino -- a small but progressive republic -- has achieved an impressive milestone in its renewable energy journey. Over the past 15 years, the country has installed more than 4,200 private solar systems.. This remarkable achievement places San Marino among the global leaders in solar power production, with 450 watts of energy produced per capita.

Power a farmer's future with a home solar kit. Even something as simple as electric lighting can improve agricultural productivity, as farmers can spend more time in their fields instead of rushing home to tend to household chores before sundown.
