MARSRIVA - Solar Inverter / Battery / Energy Storage System / UPS System_Light up the world with MARSRIVA products-Solar Inverter, Battery, UPS System.etc. Whenever and wherever you need, choose MARSRIVA and keep the life power on.

PV System Design The PV module converts sunlight into DC electricity. Solar charge controller regulates the voltage and current coming from the PV panels going to the battery and prevents battery overcharging and prolongs the battery life. Inverter converts DC output of PV panels or wind turbines into a clean AC current for AC appliances or fed back into the grid line. Battery ...

Solar Products Distributors Distributors are those companies working as big warehouses that served as the middlemen between the consumer/customer and the manufacturer. Typically, in distribution, a company is handling the sourcing, stocking and logistics but nowadays they are also helping manufacturers in product designing and solving other business conflicts. Aside ...

Solar water pump definition A solar water pump is a mechanical pump powered by electricity generated using photovoltaic panels. It is popularly referred to as a solar water pumping system because it requires several key components to work. The critical constituents of a functional water pump include; A solar panel array A mechanical DC water pump Photovoltaic cables A fuse ...
