Microgrid Capacity at Fifth Season. The modular microgrid that Scale designed is a game-changing behind the meter system that utilizes a combination of photovoltaic solar panels, lithium ion batteries, and a natural gas generator outfitted with advanced emissions control technology.

Meet Daniel Forero, Director, Capital Solutions. Daniel Forero is a Director in the Capital Solutions team where he is primarily focused on raising capital and structuring financing alternatives for Scale's diverse portfolio of energy infrastructure assets.

Scale will own and operate the microgrid under a microgrid service agreement (MSA), with 24/7/365 on-site and remote monitoring by Scale. The MSA also eliminates up-front costs for SMWD, replacing a large capital expense with a monthly service fee and allowing the utility (and its customers) to save on energy costs from day one.
