

I'm currently in the process of looking at getting a EV charger for my home. I think I would prefer an untethered charger as the charging point would be on an exposed exterior wall and I don't ...

The new European charging cable standard EN 50620 has been in force since November 2017. For this purpose, we developed our charging cable KBE EVC H07BZ5-F and had it certified by the VDE. This certification was ...

EV Charging cable Type 2 to Type 2 for electric vehicle charging. Charge your NZ new EV at 32a 7kW with this cable. The majority of New Zealand public charge points use Type 2, also called Mennekes. This cable will allow ...

The VW T7 Caravelle EV includes a designated compartment for storing the charging cable. This space helps keep the cable organized and out of sight when not in use, contributing to a tidy load ...

Good afternoon everyone. Just a quick charger question as far as cable goes. I ordered an Undor so that I can run the cable under the garage. Silly me didn't read that it has issues with garages that have a lip. Would anyone ...

Investing in a high-quality, purpose-built EV charging extension cable ensures you can charge your vehicle reliably and safely, no matter where you park. Avoid using generic household extension cords for EV charging, and always ...

Charging cables matter more than people think. A lower-rated cable limits the current, even if the car and charger are both capable of more. For example, a 16-amp cable delivers ...

Getting a home wallbox charger is usually the easiest, safest, and cheapest way to charge your electric car or plug-in hybrid. Charging overnight with cheaper off-peak electricity can save you enough money to cover the cost ...

LIDL is selling a handy electric gadget which is hitting the middle aisle in just days. In good news for any shopper, it's over £30 less than a version being sold by Screwfix.

The electric vehicle (EV) revolution is well underway, and Kia is at the forefront with its innovative and increasingly popular EV lineup. The Kia EV3, poised to be a game-changer in the ...

Offering up to 22kWh (Kilowatt hour) charging speeds, the Juice Booster 2 is packed full of clever technology to ensure fast yet safe EV charging from a regular three-pin plug. The IP67-rated charger can charge vehicles
