If SEPCO did not provide the pole, the installer will need to source 1/2" - 5/8" diameter stainless steel bolts for mounting the solar and fixture bracket. SEPCO Solar Power Assemblies are specified for many applications; therefore, the bolts and wires are not included for no pole orders as the length and distance are unknown.

solar power systems. With over 30 years of experience, SEPCO is known as the pioneer in the solar lighting industry. While roots date back to 1979, SEPCO has been exclusively manufacturing commercial solar lighting and off-grid solar power systems under the SEPCO name since 1994. SEPCO products offer the perfect solution

As a commercial solar lighting pioneer and industry leader for over two decades with 1,000's successful solar lighting projects around the world, SEPCO is the ideal partner for your solar lighting project. SEPCO Founder and President Steve Robbins designed and patented the world's first commercial solar street light.

COSt SaVingS: Solar provides cost savings because the sun acts as a "utility energy company" without cost.
EaSy inStaLLatiOn: Solar panels are easy to install, only needing basic wiring and bolts for secure conversion.
LOW VOLtagE: Solar utilizes lower voltage, typically 12 Volts, which means safer usage and installation.

SEPCO's solar-powered LED street light systems are an efficient means of providing lighting without the need for standard utility power. Every solar street light system provides cost savings by eliminating electric bills and the need to trench standard electric wires for installation. We've installed solar LED street lights on streets ...

So, you ordered your SEPCO solar lighting system and are awaiting the shipment to arrive. Once it shows up,

Sepco solar Poland

it will be on one or more pallets, depending on the system size and how many were ordered. Once it arrives, all packages have been inspected, and the components are ready for installation, the best thing to do is go back through the installation manual for a quick read.
