Will French Guiana build a biomass power plant?

Paris-based Voltalia said it is now building the 5.1-MW Cocoa biomass power plant, with a planned commissioning date in 2020. According to the French government, the energy strategy for French Guiana currently focuses on development of biomass, solar and hydropower generation.

What is French Guiana's energy strategy?

According to the French government, the energy strategy for French Guiana currently focuses on development of biomass, solar and hydropower generation. France plans to achieve 83 percent renewables in French Guiana's energy mix by 2023.

What is Simba CubeSat?

Due to launch aboard Sunday's Vega rocket, Belgium's Simba CubeSat is a tiny mission with a big ambition: to measure one of the fundamental drivers of climate change in a new way. The 30-cm long nanosatellite will turn from Earth to space to the Sun and back again, to calculate our planet's overall energy budget.

How many kW / 250 kWh will be installed at French Guiana?

A battery storage component of 550kW/250 kWh is planned to be installed at the site, as well, Voltalia said. At present, the French firm owns three solar, two biomass and one hydropower plant in French Guiana, plus some 30 MW of energy storage facilities.

What is the difference between CubeSat and Simba?

CubeSats are miniature satellites built up from standardised 10-cm boxes. Simba, short for 'Sun-Earth Imbalance' is a '3-unit' CubeSat, developed with ESA by a consortium led by Belgium's Royal Meteorological Institute (RMI) with the University of Leuven and ISIS-Innovative Solutions in Space in the Netherlands.

Does Simba have a 'attitude determination and control system'?

Simba is equipped with a specially-developed CubeSat-optimised 'attitude determination and control system' or ADCS for short, contributed by the University of Leuven.

All SIMBA mobile plans include roaming data to Malaysia and up to 60+ other countries, with no hidden fees. Roam worry-free and stay connected as soon as you arrive at your destination. Plus, make calls to and from Singapore without paying roaming charges by using VoLTE.
