What is sunwoda's high-capacity liquid cooling energy storage system?

The high-capacity liquid cooling energy storage system named NoahX 2.0 is built around Sunwoda's 314Ah battery cell and achieves capacities of 4.17MWh/5MWh in a 20ft container structure. Sunwoda Energy today announced the official launch of its high-capacity liquid cooling energy storage system named NoahX 2.0 at RE+2023.

Does sunwoda have a liquid cooling system?

PRNewswire/-- Sunwoda Energy today announced the official launch of its high-capacity liquid cooling energy storage system named NoahX 2.0 at RE+2023. The...

Is sunwoda launching a new energy storage system?

Sunwoda Energy today announced the official launch of its high-capacity liquid cooling energy storage system named NoahX 2.0 at RE+2023. The new product marks a significant leap forward in system energy, cycle life, smart management, and safety, solidifying the company's position at the forefront of the energy storage industry.

What is sunwoda LBCs?

All-in-one design, rapid installation and deployment. Sunwoda LBCS (liquid -cooling Battery Container System) is a versatile industrial battery system with liquid cooling shipped in a 20-foot container. The standard unit is prefabricated with a modular battery cluster, fire suppression system, water cooling unit, and local monitoring.

How many countries does sunwoda energy serve?

Sunwoda Energy's energy storage systems have served customers in nearly 100 countries and regions.

Why is sunwoda energy a leader in energy storage?

This release signifies a significant advancement in system energy, cycle longevity, intelligent management, and safety measures, firmly establishing Sunwoda Energy as a leader in the energy storage industry. Extended Lifespan
