

Smart grid and smart city

The global Combined CT-VT Metering Unit market is experiencing robust growth, driven by the increasing demand for advanced metering infrastructure (AMI) in the power distribution sector. ...

????????????????(ICWCSG 2025) 2025 7th International Conference on Wireless Communications and Smart Grid ??????????????????,????????????????????? ...

The global market for Intelligent Feeder Terminal Units (FTUs) is experiencing robust growth, driven by the increasing demand for smart grids and advanced energy management systems. ...

The NB-IoT smart meter market is experiencing robust growth, driven by increasing demand for efficient energy management and smart grid infrastructure upgrades. The market, estimated at ...

Source: GWEC The decline in installations in 2024 has been attributed to adverse conditions, including a negative policy environment in the U.S., auction failures in the UK and Denmark, ...

In this report, professionals from KPMG's global network join with experienced industry and city leaders to unpack these three priorities - integrated, data-driven and enabling - across the lens of the six key ...

The widespread integration of electric vehicles (EVs) into smart grid infrastructures necessitates intelligent and robust battery health diagnostics to ensure system resilience and performance ...

It has the option to add a battery energy storage system with a capacity of up to 600 MWh in the future. Commercial operation of the Gabare solar project is expected in 2027. [Click here for ...](#)

India aims to deploy 500 GW of non-fossil fuel-based energy capacity by 2030. While the country has made significant progress toward meeting this goal, it still faces challenges arising from ...

Rajasthan Rajya Vidyut Utpadan Nigam (RVUNL) has invited bids from consultants to design land banks to develop 34 GW of solar parks on government land. The contract will be for six months from the issuance of the letter of ...

The global intelligent power meter market is experiencing robust growth, driven by increasing demand for smart grid infrastructure and the need for improved energy efficiency. The market, estimated at \$15 billion in 2025, is projected to exhibit ...

Stay Informed! Read the Latest Ring Main Unit (RMU) Market to Hit \$4.8 Billion by 2032, Fueled by Smart Grid & IoT Adoption PR News from Saudi Arabia, USA. [Get the Full Story, Updates, ...](#)

Smart grid and smart city

As urban challenges intensify amid rapid growth, climate change, and resource scarcity, aligning smart city development with sustainability goals has become a global imperative. This study ...
