The term "solar battery" refers to a battery storage cell that can be integrated into residential or commercial solar systems. These batteries store excess energy that would otherwise be exported back to the grid. Utilising energy from your solar system instead of the grid not only enhances financial savings but also shortens the break-even period for your investment.

UK Solar Panel Grants and Incentives There are currently four main incentives to encourage the adoption of solar panels in the United Kingdom. Smart Export Guarantee (SEG) The Smart Export Guarantee, or SEG, came into effect on the first of January 2020. The SEG is the only type of solar panel funding currently available to UK residents.
