This project is a step in advancing renewable energy efforts for both Laos and China. The solar farm, located near the Laos-China border, aligns with Laos's goal to increase renewable energy consumption to 30 percent by 2025. This initiative is part of the broader Northern Clean Energy Connection project, which aims to bolster energy security ...

The DRE system could be of any type - solar, wind (or, even better, a wind-solar hybrid), or biomass or biofuel-based. Biofuel is a low-hanging fruit. India's agriculture sector generates huge amounts of biomass every year, which can be used directly as biofuel or processed to produce other biofuels such as ethanol, bio-CNG, and biogas.
