In Madagascar, electricity is still a luxury for many households, especially in rural areas where the standard of living is low. On this Indian Ocean Island, Welight has been committed to electrifying villages for the past three years and to date, 35 Malagasy localities have benefited from small solar power plants supplying 25,000 households.

Madagascar is the largest island state in Africa and the fourth largest island in the world. With the equivalent of 440 US dollars a year¹, the annual gross national income per capita is far below the average of the other African states south of the Sahara. Only about 15% of the Madagascan have an electricity connection, in the rural areas less than one out of ten persons².
