

Lithuania is targeting 100% renewable energy consumption by 2028, with intermittent generation from solar and wind driving the need for large-scale energy storage. This is particularly the ...

Green Genius has launched a 7.5 MW solar and 6 MWh battery system at Carlsberg's Svyturys-Utenos Alus brewery in Lithuania, fully decarbonising its electricity use and setting a new sustainability benchmark in ...

In the first half of 2025, Lithuanian startups have raised a record-shattering EUR167.7 million in venture capital--five times more than during the same period in 2024. This dramatic growth ...

The Ministers of Energy and the Environment in Lithuania have approved an additional EUR37 million (US\$43 million) for an energy storage capex grant scheme, while Trina Storage has secured orders in the country.

Lithuanian residents now have more financial support available to install rooftop solar panels or expand their existing systems, thanks to an additional 9.3 million euros in government funding...

VILNIUS - A solar park in the village of Meiluskiai in Lithuania's northeastern district of Anyksciai, operated by Danish renewable energy company European Energy, has joined the Lithuanian ...

Renewable Energy Market Analysis by Mordor Intelligence The Renewable Energy Market size in terms of installed base is expected to grow from 5.08 Thousand gigawatt in 2025 to 7.04 Thousand gigawatt by 2030, at a ...

Lithuania has nearly doubled its electricity generation from renewable sources between 2022 and 2024. The policy shifts have led to a rise in residential solar photovoltaic (PV) installations and ...

The Ministers of Energy and the Environment in Lithuania have approved an additional EUR37 million (US\$43 million) for an energy storage capex grant scheme, while Trina Storage has secured ...

A turbine at an Ignitis Group onshore wind power plant. Image: Ignitis Group Utility Ignitis Group has taken a final investment decision (FID) on three large-scale battery storage projects in ...

With its updated National Energy Independence Strategy, Lithuania has outlined its intention to move towards an electrified energy system and support new industrial development based on ...

A solar park developed by European Energy in Meiluskiai, Anyksciai district, has joined the electricity balancing market organised by the Lithuanian electricity TSO Litgrid and submitted ...
