

Solar energy in Ukraine

How much solar power will Ukraine have by 2027?

The results show that 9.2 GW of solar generation capacity can be integrated into the Ukrainian electricity system by 2027 and up to 14 GW by 2030. This represents an increase of 8.4 GW compared to current capacity and will require an investment of almost EUR5 billion.

Does Ukraine have solar power?

In the years leading up to the start of the Russian war of aggression, the share of solar power in Ukraine's total electricity generation capacity had already increased significantly - from 5.9 GW in 2018 to 8.06 GW in 2022 - an increase in solar generation capacity of almost 37%.

What is the optimal share of solar power in Ukraine?

Based on techno-economic modelling, we have determined the optimal share of solar power for the period 2027-30. The results show that 9.2 GW of solar generation capacity can be integrated into the Ukrainian electricity system by 2027 and up to 14 GW by 2030.

Does Ukraine have a solar farm?

The Gnatkiv solar farm, one of Rengy Development's Ukraine project portfolio. Image: Rengy Development. Despite Ukraine's ongoing conflict with Russia, the country's solar sector continues to develop. Lena Dias Martins reports on the opportunities solar developers are finding amid the horrors of war.

Is renewable capacity growing in Ukraine?

Installed renewable capacity in Ukraine is growing. This was the message from Maksym Sysoiev, partner at global law firm Dentons, at the 'Large Scale Solar Summit Central Eastern Europe' (LSS CEE) late last year, hosted by PV Tech Power publisher, Solar Media. "Despite the odds," Sysoiev added, new solar plants are being implemented and completed.

Are new solar plants being built in central and Eastern Europe?

"Despite the odds," Sysoiev added, new solar plants are being implemented and completed. Large Scale Solar Central and Eastern Europe continues to be the place to leverage a network that has been made over more than 10 years, to build critical partnerships to develop solar projects throughout the region.
