

Solar Energy Expansion: Promoting rooftop solar installations and large-scale solar farms. Geothermal Energy: Utilizing geothermal resources for both electricity generation and district ...

Anyone who has been on the fence about solar energy still has some time to take advantage before the cuts are official at the end of the year. Major changes are coming to federal clean ...

The One Big Beautiful Bill Act gives the oil, gas and coal industries historic access to federal lands while ending key tax credits for solar and wind. President Donald Trump has been openly ...

Solar energy is radiation from the Sun that is capable of producing heat, causing chemical reactions, or generating electricity. The total amount of solar energy incident on Earth is vastly in excess of the world's energy ...

Dutch industry is under severe pressure due to high energy costs, strict environmental regulations, and deindustrialization trends, threatening its long-standing role as a European ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

BRUSSELS/BERLIN, July 24 (Reuters) - The European Union's expansion of solar energy is on track for its first annual slowdown in more than a decade, industry data showed on Thursday, as some ...

The One Big Beautiful Bill (OBBB), signed into law by President Donald Trump on July 4, 2025, represents a transformative shift in U.S. energy policy, significantly impacting solar energy credits and the broader renewable energy sector.

The IAEA is the world's centre for cooperation in the nuclear field, promoting the safe, secure and peaceful use of nuclear technology. It works in a wide range of areas including energy generation, health, food and agriculture ...

Green Hydrogen Innovation Centre, an initiative from International Solar Alliance, the mission is to provide a one-stop platform that consolidates and disseminates the latest ...

The utility-scale solar market remains relatively resilient, driven by auctions across Europe that incentivise flexible solar projects that are combined with storage or wind. BRUSSELS, Belgium ...

Bis 2030 sollen 11.000 MWp Photovoltaik ausgebaut werden, um Österreichs Klimaziele zu erreichen. Photovoltaik hat sich in den letzten Jahren zu einer der günstigsten Stromerzeugungsquellen entwickelt und weist ein ...

DHAKA, July 27, 2025 (BSS) - Centre for Policy Dialogue (CPD) has appreciated the government's initiative to add around 3,000 megawatts (MW) of electricity to the national grid ...

The global transition to clean energy necessitates integrated solutions that ensure both environmental sustainability and energy security. This paper proposes a scenario-based modeling framework for urban hybrid energy systems ...
