

NLC India Limited has announced plans to invest Rs 1.25 trillion by 2030 to expand its total power generation capacity from the current 6.7 GW to 20 GW. Out of the total planned capital ...

OAKLAND, Calif.-- (BUSINESS WIRE)--Primergy Solar LLC ("Primergy"), a leading developer, owner, and operator of utility-scale solar and energy storage projects, announced today that its ...

What is Solar Energy Investment in Nepal? Solar energy investment in Nepal involves foreign capital deployment in photovoltaic (PV) systems, solar thermal plants, and grid-connected ...

The Nepalese government has launched its biggest rural electrification plan, aiming to bring solar energy to over 500 villages currently off the national grid. Backed by the Asian Development ...

Battery storage has become a critical component in modern solar PV systems, especially for enhancing energy reliability, self-consumption, and grid independence. Whether for residential, ...

Integration with Smart Grid and Energy Storage: String inverters are increasingly being integrated with smart grid technologies for remote monitoring, diagnostics, and control. Furthermore, the ...

In the past year, eight hydropower and solar projects in Nepal have begun commercial electricity production, contributing a total of 77.97 megawatts (MW) to the national grid, according to the ...

Congress and President Trump just passed legislation to cut the 30% residential solar tax credit in 2026--nearly a decade ahead of schedule. For homeowners considering solar, act now to lock ...

Ashish Khanna, the Director General of the International Solar Alliance (ISA), has stated that grid connectivity with India is crucial for Sri Lanka to cut energy costs and ensure energy security ...

As of 2025, energy efficiency and cost optimization have become critical priorities for businesses worldwide. Volatile electricity tariffs, rising energy costs, and frequent power supply disruptions are prompting companies to adopt smarter, ...

The rise of solar-plus-storage is no longer just a technical trend--it's now a major supply chain story. Tesla, BYD and CATL are not only producing batteries to back up solar power, but also ...

This is the largest utility-scale solar power project in Nepal, and the first-ever solar project in Nepal registered for I-REC issuance. The availability of I-RECs from this solar power plant ...
