

Solar panel price New Zealand

How much do solar panels cost in New Zealand?

A 3kW solar power system would need ten 300W solar panels at a rough cost of \$8000 - \$10,000 in New Zealand. Conversely, a 4kW solar power system would require fourteen 290W solar panels at a ballpark figure of \$10k - \$11k installed.

How much does a 5 kW solar system cost in New Zealand?

In 2023, a typical 5 kW solar power system in New Zealand costs around \$13,500. Like most other things, the larger a system, the lower its cost per watt. For instance, a small, 2 kW system may cost around \$7,500, which comes down to about \$3.75/W. On the other hand, a larger, 10 kW system can cost around \$25,000, or about \$2.5/W.

Are solar panels available in NZ?

The good thing about solar panel systems in NZ is its availability nationwide! Wherever you are, there's always a solar panel provider available to help with installation in your area. These providers offer clean ways to go solar, and at the most affordable rates in the market.

Are solar panels a good investment in New Zealand?

A solar power system in New Zealand can easily earn a 10 to 15% return on investment. But this rate of return is likely to increase each year as the price of electricity continues to climb. Unsure if solar panels on your roof will be worthwhile or if the upfront cost will lead to a good payback?

How much do solar panels cost?

Solar panels are a cheap and cost-effective solution for powering your home. For as little as \$8,000, you can get a 3kW solar power system in your household - and it comes with free installation too! If you want to save on your power costs in the long run, then don't wait any longer and install solar panels in your home!

How do solar panels work in New Zealand?

Installing solar panels means generating and consuming your own electricity, independently. This is the most common type of solar power system in New Zealand. A grid-connected solar panel system is comprised of solar panels, an inverter, and connection components.

Dunedin Solar use SunPower solar panels because we know their claims of reliability and performance are backed by real-world evidence. They boast a return rate of less than 0.005% based on over 15 million panels installed since 1985.
