

Solar plant Jersey

Could St Clement be Jersey's first ground-mounted solar farm?

Land south of Rue du Moulin à Vent, St Clement, could be the site for Jersey's first ground-mounted solar farm if plans by Jersey Electricity get the go-ahead.

Could a solar farm boost jersey's energy security?

Bosses said the plans for the 2.7 hectare site,meant electricity would be returned to the grid in a process which would "increase Jersey's energy security"; A solar farm in Jersey could power 17% of the parish's homes if planning is approved,electricity bosses say.

Could a solar farm power 17% of St Peter's homes?

A solar farm in Jersey could power 17% of the parish's homes if planning is approved,electricity bosses say. Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon.

Will a ground-based solar installation at Mont Fondon increase Jersey's energy security?

Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon. Bosses said the plans for the 2.7 hectare site,meant electricity would be returned to the grid in a process which would "increase Jersey's energy security".

Will Jersey's 'island plan' boost energy security?

Bosses said the plans for the 2.7 hectare site,meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". The firm said the proposal - which is one of several sites it hopes to build by 2026 - supported the government's Island Plan and energy policy.

Will St Clement & St John 'build Jersey's energy sovereignty?

Referencing a ground-mount solar installation in St Clement due to produce renewable energy in 2025,and a second project in St John,he said they were taking positive steps to "build Jersey's energy sovereignty,diversifying our energy sources and promoting the local economy".

SUBCHAPTER 24: SOLAR ENERGY GENERATION ON PRESERVED FARMS 2:76-24.1 Applicability

This subchapter applies to the construction, installation, operation, and maintenance of ... State of New Jersey, and prescribes practices and standards for the conservation and management of soil, water, and related natural resources, which is available at

Land south of Rue du Moulin à Vent, St Clement, could be the site for Jersey's first ground mounted solar farm, if plans by Jersey Electricity get the go-ahead. The utility company is looking to raise the amount of on-Island ...
