

Among them, the 233-megawatt photovoltaic project completed in 2016 was Algeria's first new energy project and also the first large-scale grid-connected photovoltaic power station project in Africa. It was honored with the Luban Prize for Overseas Projects in 2018-2019.

The Casablanca Solar Power Plant - Thermal Energy Storage System was developed by ACS France and Cobra Gestion de Infraestructuras (Ggrupo Cobra). The project is owned by ACS France (50%) and Cobra Gestion de Infraestructuras (Ggrupo Cobra) (50%). The key applications of the project are renewable capacity firming and renewable energy time shift.

The construction of a further two power plants was awarded to mixed Algerian groups. A foreign company was awarded the construction rights of another power plant. Solar projects to help build expertise in Algeria . Minister of Energy and Mines, Mohamed Arkab described the two projects as a "decisive turning point" for Algeria.
