

The innovative solar solution, developed by Ålesund-based green energy company Alotta, was implemented at Emilsen Fisk's B&#229;fjordstranda site in Tr&#248;ndelag, Norway, making it the world's ...

There are no requirements for public ownership for wind power plants, solar power plants, and transmission or distribution facilities. The governance of ownership and operations within the ...

The aim of this work is to study the effects of utilizing cleaner technologies in district heating networks and assess their contribution to the energy transition within densely ...

This study investigates the thermal performance of cabinet-type solar dryer using paraffin wax-based NEPCM enhanced with 0.5% functionalized multi-walled carbon nanotubes (FMWCNT). ...

The Fraunhofer Institute for Solar Energy Systems ISE in Freiburg, Germany is the largest solar research institute in Europe. With a staff of about 1 400, we are committed to promoting a sustainable, economic, secure and ...

This article gives a clear account of alumina-based materials used in solar thermal energy systems. It covers solar thermal conversion, how high stability materials are important, and ...

A new study has revealed that Norway's buildings could generate enough solar energy to meet nearly half of the country's annual electricity demand. With up to 87 gigawatts of technical ...

Berlin - Solar thermal energy has big goals, but has so far fallen short of expectations. Last year, for example, only three large ground-mounted systems with a capacity of 7 MW were ...

Solar Thermal Energy Solar thermal energy is the process of harnessing the heat from the sun to create hot water, heat spaces within your home, or to create solar electricity. Solar thermal uses solar panels that heat ...

Xinjiang's vast area and low land costs make it economical to develop new-energy sources, Lin said. Many State-owned enterprises are also eyeing Xinjiang for abundant solar and wind resources, as the nation vows to ...

Jamie Gibbs Hot water accounts for around 11% of the average energy bill. So, if you're looking to lower your energy costs and improve your carbon footprint, it's worth considering solar water heating. Solar water heating ...
