

Solar tracker system plus water pumping BESS

The deal for CATL's EnerX BESS units would comprise roughly half the planned 4.4GWh energy storage capacity at Vanda Solar & Battery Project, which is being developed for eventual ...

Swedish solar developer OX2 has submitted plans for a 150MW solar-plus-storage project in Queensland to Australia's Environment Protection and Biodiversity Conservation (EPBC) Act. ...

Synergy's Collie BESS (pictured) is the largest BESS connected to the SWIS. Image: Roger Cook (LinkedIn)
On 21 July, standalone battery energy storage systems (BESS) and solar-plus-storage each achieved new generation ...

The project will utilise Energy Dome's CO2 Battery, which stores energy via the adiabatic compression of carbon dioxide. Image: Energy Dome, Alliant Energy Energy Dome and Alliant Energy's 20MW/200MWh long-duration energy ...

Norwegian developer Scatec has also signed a long-term PPA with EETC for a large-scale solar-plus-storage project, featuring more than a gigawatt of solar PV to be built in two phases, ...

Cero Generation and Enso Energy have together reached financial close on a 360MW solar-plus-storage portfolio of projects in the UK. The portfolio comprises three solar and battery energy ...

It will feature around 215,000 solar PV modules. The BESS will cover 1.9 hectares of land and act as a large-scale supplier to the grid. As part of the project, OX2 will provide Richmond...

To ensure that your pump runs efficiently, reliably, and safely, a solar pump inverter is essential. This article explores how solar pump inverters work, why they're a critical component in ...

In this context, the design of a device that can both conserve rainwater and harness solar energy can provide a solution to two pressing issues. This manuscript presents an automatic tracking ...

The Greenbank BESS (pictured) started commercial operations last month. Image: CS Energy. State-owned energy company CS Energy announced yesterday (25 July) that its 200MW/400MWh Greenbank battery energy ...

The wind-plus-storage site will be located within the proposed Central Highlands Renewable Energy Zone. Image: Acciona Energía. Spain-based renewable energy firm Acciona Energía ...

Solar tracker system plus water pumping BESS

The Koorangie BESS (pictured) features 100 Tesla Megapack units equipped with grid-forming inverters. Image: Edify Energy. Australian renewable energy developer Edify Energy has confirmed that its 185MW/370MWh Koorangie ...

In that filing, presented to the regulator in March, the New Mexico utility sought approval for 450MW of solar PV and storage, comprising two 150MW standalone battery storage projects, ...

The hybrid BESS and solar PV project is currently under construction and has already secured an offtake with gas provider Abastible. Image: Zelestra. Spanish developer and independent ...

IndiGrid's operational portfolio includes transmission (pictured) and solar PV, while the company recently brought online its first grid-scale BESS. Image: IndiGrid via X. The International ...

Philippine president Ferdinand Marcos Jr (centre) at the November 2024 groundbreaking for the Meralco Terra Solar project. Image: Meralco Terra Solar The power generation arm of the ...

Canadian Solar subsidiary e-STORAGE will supply its SolBank 3.0 technology for the project. Image: FRV Australia. Fluence, a battery storage system integrator and clean energy software ...

A turbine at an Ignitis Group onshore wind power plant. Image: Ignitis Group Utility Ignitis Group has taken a final investment decision (FID) on three large-scale battery storage projects in ...

Solar tracker system plus water pumping BESS
