

Map of the exclusive economic zone of Saint Pierre and Miquelon. France claimed a 200-nautical-mile (370 km; 230 mi) exclusive economic zone for Saint-Pierre and Miquelon, and in August 1983 the naval ship Lieutenant de vaisseau Le Hénaff and the seismic ship Lucien Beaufort were sent to explore for oil in the disputed zone. [40] In addition to the ...

Currently, the state of electricity consumption in St. Pierre & Miquelon is heavily dependent on fossil fuels, with 100% of its electricity generated from fossil sources. This entirely fossil-based electricity supply poses significant environmental challenges, including elevated greenhouse gas emissions and air pollution, contributing to global climate change and local health issues.

Saint-Pierre et Miquelon est une collectivité d'outre-mer française qui doit également participer à la transition énergétique lancée par la métropole.
