

Solar LED flood light FLUX is a multifunctional solar LED light that SOLTECH create for many urban lighting applications. FLUX can be used in either commercial or residential. This solar flood light come with the wall mount and pole mount accessors for end user to install the light at any places where need light.

San Diego Gas & Electric (SDG& E) has signed contracts with subsidiaries of Soitec Solar Development to build three solar projects in San Diego County with a combined capacity of 30MW.

R& D. Naast de productie van bouwmaterialen met een plus, is Research & Development de tweede belangrijke kernactiviteit van SOLTECH inzet op onderzoek, een sterke focus op continue ontwikkeling van nieuwe producten en de verbetering van bestaande producten garandeert een state-of-the-art technologie. Reeds jaren vormt ons R& D-team het innovatieve ...

Solar LED Flood Light COSMO has a user-friendly mounting system with allow users to easily mount it on different places. Such as, walls and poles. Also, COSMO has an adjustable solar panel and light head system. After install it, users can adjust the panel angel by themselves. Therefore, the solar panel can harvest the most sunlight to charge ...

SoliTek, eine Fabrik für Solarmodule, wurde im Jahr 2013 errichtet und das Gebäude wurde von der deutschen Handelskammer zum Grünsten Industriegebäude in Europa ernannt. Die Produktion von Solarmodulen wird mit erneuerbarer Energie versorgt - wir haben ein Solarkraftwerk (150 kW Solarkraftwerk auf dem Dach des Gebäudes) und zusätzliche Energie ...

SOLTAB and SOLPORT are perfect for garage lighting projects. SOLTAB has a double-sided solar panel, which maximizes its energy absorption. SOLPORT has a fully integrated design, eliminating the need for trenching, wiring, or electricity costs. For other residential solar lighting projects, the NUVO or VIOS are excellent options because either can be easily installed on a ...

All glass glass solar modules from SoliTek are certified by Cradle to Cradle. At ideal circumstances bifacial solar panel can generate up to 35% more electricity, compared with glass foil solar panel. We started to produce solar panel Solid Bifacial in 2017 and our RnD department made a huge impact in developing such solar panels
