The Solomon Islands has significant potential for renewable energy, particularly solar power, to address its growing energy demand and reduce reliance on fossil fuels. The Ministry of Finance and Treasury (MoFT), as a major energy consumer, has identified solar power as a viable solution to reduce energy costs and environmental impact.

Honiara, the capital city of Solomon Islands, is situated in a tropical location that offers consistently favorable conditions for solar energy generation throughout the year. Located at latitude -9.4277 and longitude 159.9494, this equatorial setting experiences minimal seasonal variations in daylight hours, making it an attractive site for solar photovoltaic (PV) installations.

## Solomon Islands lekker solar limited

The Project forms part of a broader initiative of Solomon Islands Electricity Authority (SIEA), trading as Solomon Power, the state-owned enterprise responsible for energy generation and distribution within the Solomon Islands. Solomon Power has recently started to invest in strengthening and expanding its system.

Solar System Installers in Solomon Islands Solomon Island solar panel installers - showing companies in Solomon Islands that undertake solar panel installation, including rooftop and standalone solar systems. 2 installers based in Solomon Islands are listed below.

3. UAE/NZ Funded 1MW Solar Farm project. Going forward, SP is investing in clean and renewable energy sources. Following the 2013 feasibility study investigating the development of a 1MW grid-connected solar power station, UAE and NZ government cofounded the development of a 1MW solar farm project at Fighter 1, Henderson.
