

HY SOLAR has recently obtained the certificate issued by PV CYCLE. As a member of PV CYCLE, the association will be responsible for recycling and reusing the module products of HY SOLAR (sold within the membership term) which have reached the service life, thus opening up the "last kilometer" of the photovoltaic green industrial chain of HY ...

I highly recommend HY Solar and their exceptional range of photovoltaic (PV) panel products. With a commitment to cutting-edge technology and sustainable energy solutions, HY Solar stands out as a reliable provider in the solar industry. Their PV panels boast impressive efficiency rates and durability, ensuring optimal performance and longevity.

Degradação mais baixa, garantia mais longa. Em comparação com os módulos PERC tradicionais, os módulos tipo N da série HT da HY SOLAR têm 15 anos de garantia de fabricação do produto e até 30 anos de garantia de potência linear, com menos de 0,4% de degradação anual. É garantido que a potência de saída será inferior a 87,4% da potência inicial.

I highly recommend HY Solar and their exceptional range of photovoltaic (PV) panel products. With a commitment to cutting-edge technology and sustainable energy solutions, HY Solar stands out as a reliable provider in the solar ...

HY SOLAR (Stock Code: 603185) was founded in 2002, and currently we have well-established in business industries such as PV equipment manufacturing, metallurgical-grade silicon and crystalline silicon, PV wafer, N-type cell, N-type module, and new energy power station construction, etc., building an eco-system of N-type PV industry. We are committed to ...

Vantagens principais. 21.9 %. Alta eficiência. 1.6 μ C. Tecnologia de meia célula, 1.6 μ C. Redução da temperatura do módulo fotovoltaico. Corte destrutivo, redução da perda de pontos quentes

HY SOLAR was listed on the SSE in 2018 (stock code: 603185). By the end of 2022, the total enterprise assets were 21.03 billion yuan and the book value was sufficient. From 2021 to 2022, its asset-liability ratio was 48.65% and 40.4% respectively, which is lower than that of the industry average level, and the interest-bearing liabilities are ...

HY SOLAR Co., Ltd. foi fundada em 2002, com sede na cidade de Wuxi, província de Jiangsu. Somos uma empresa cotada na bolsa (código de ações 603185) que se concentra na inovação e aplicação na indústria das energias renováveis e que possui

de forma independente toda a cadeia industrial fotovoltaica.

HY SOLAR was founded in 2002, with our headquarter in Wuxi City, Jiangsu Province. We are a listed firm (Stock Code: 603185.SH) focuses on invention and application in the renewable energy industry, and independently owns the entire photovoltaic industrial chain.

HY SOLAR was founded in 2002, with our headquarter in Wuxi City, Jiangsu Province. We are a listed firm (Stock Code: 603185.SH) focuses on invention and application in the renewable energy industry, and independently owns the entire photovoltaic industrial chain. ... On June 12th, the members of HY SOLAR Co., Ltd. including Chairman Yang ...

HY SOLAR production line is designed based on the principle of safe, intelligent, stable, efficient and energy-safe, to realize the leading tact time in industry of 16s. 02 High Automation Rate Facilities scheme of HY SOLAR production line is of high compatibility and low-consumption.

Founded in 2002, HOYUAN Green Energy Co.,Ltd.(formerly known as "WUXI SHANGJI AUTOMATION CO.,LTD.", stock code 603185) is a national specialized, refined, special and innovative enterprise positioned in the field of high-end intelligent equipment manufacturing and PV crystalline silicon product supply. ... HY SOLAR was founded in 2002, with our ...

HY Solar was established in 2002 and is now a leader in PV equipment manufacturing, metallurgical-grade silicon, crystalline silicon, PV wafers, N-type cells, N-type modules, and new energy power station construction, creating an N-type PV industry ecosystem.

A disposição verticalmente integrada da indústria da HY SOLAR pode garantir a entrega atempada dos produtos. 02. Controlo de custos. O efeito de dimensão, a agregação logística, a ligação industrial e os custos reduzidos permitem à HY SOLAR ter uma sólida vantagem na cadeia de abastecimento. 03. Gestão da qualidade

Lower degradation, Longer Warranty. Compared with traditional PERC modules, HY SOLAR HT series N-type modules have 15-year product workmanship warranty, and up to 30-year linear power warranty, with less than 0.4% of annual degradation.

Founded in 2002, HOYUAN Green Energy Co.,Ltd.(formerly known as "WUXI SHANGJI AUTOMATION CO.,LTD.", stock code 603185) is a national specialized, refined, special and innovative enterprise positioned in the field of high-end intelligent equipment manufacturing and PV crystalline silicon product supply. ...
